Sturgis, MI 49091

John,

It's been exactly sixty days since taking delivery of N2850Y. I can't begin to tell you how happy and satisfied I am in my decision to purchase a plane through Bartlett Aviation. Your ability and expertise locating good solid aircraft saves money in repairs and offers security that simply cannot be measured.

Your help and resourcefulness choosing competent vendors while upgrading avionics, installing wing tip lights, and just offering advice assured me I had made the right choice in Bartlett. I'm certain my first purchase won't be my last but my decision where to go when making future purchases has already made.

Integrity and honesty directed me towards choosing Bartlett and will keep me coming back in the future.

Sincerely,

Mark A. Dziuban
